CELLULAR MONITORING & GPS LOCATION SOLUTIONS

PROPHET FORESIGHT	PROPHET	PROPHET	PROPHET
CDMA Foresight	Standard Client	Host Mag Mount	UST Plus
			
<ul style="list-style-type: none"> ▶ Remote inventory monitoring solution, 900MHz, WLAN, 4 inputs, local display. ▶ Recommended for all multi-tank, co-located vessel monitoring, wired or wireless. 	<ul style="list-style-type: none"> ▶ Host models are available as Clients. Clients are compatible with Prophet Host and Prophet Foresight. ▶ Recommended as a less costly option for multi-tank monitoring in many cases. 	<ul style="list-style-type: none"> ▶ Prophet Host with mag mount and sensor (Hall effect sensor assembly sold separately). ▶ Recommended for Propane and Gasoline. 	<ul style="list-style-type: none"> ▶ Prophet UST Plus with serial cable. ▶ Recommended for use in Underground Storage Tank monitoring.

TankLink Cellular Monitoring

- Locate tanks/totes via GPS.
- Access data via PC, laptop Smartphone, tablet.
- Export delivery/routing data to Excel or your routing package.
- Track delivery efficiency and calculate potential savings.
- Proactively service your customers.

TankData Online

Our web portal provides the critical information you need to better manage your entire supplychain and make the most efficient replenishment & delivery decisions. Get alerts and notifications. Access level and product temperature, usage history and precise tank location.

The TankLink Difference

Sole-source solution for all hardware, software and data - we assemble the total package.

- Direct customer service - no third parties.
- Flat-rate tiered billing - no hidden surprises.
